ASX Announcements

Guidance of Trading Results for HY to 31 Dec 2017

At our 2017 AGM we advised, due to worsening industry supply conditions and with no immediate relief in sight, our expected reduction of the 2018H1 trading EBITDA would be in excess of 40% compared with 2017H1.

We now expect our 2018H1 EBITDA to be in the range of \$4.0 million and \$4.5 million, subject to the completion of Ernst & Young's review of the financial statements.

The Company expects to release its Half Year Accounts at the end of February 2018.

Bruce De Lacy
Company Secretary
